# How to Submit Assignments Using Turnitin LTI

This document will teach you how to submit assignments using Turnitin LTI (Learning Tools Interoperability) in Canvas. The new Turnitin LTI tool supports Originality check, GradeMark and PeerMark.

Assignment Submission Options:

Once you are logged into your Canvas account go to Assignments section and select the assignment you want to submit. You can upload any file type allowed by your instructors by clicking on the upload button. You can also download it later for your review. Once the document is submitted, you can receive a confirmation of the submission by clicking on the Receipt of Submission button, as shown below.

Upload

Summary Tab :

The assignment submission deadlines and settings enabled by the professor can be viewed under Summary. As shown below, resubmissions are allowed for this particular assignment.

Uploading Options:

- Once you click on "Upload" in the Assignment Dashboard, you can submit a file using three different options

- You can upload it directly from local drive using the "upload a file" option.
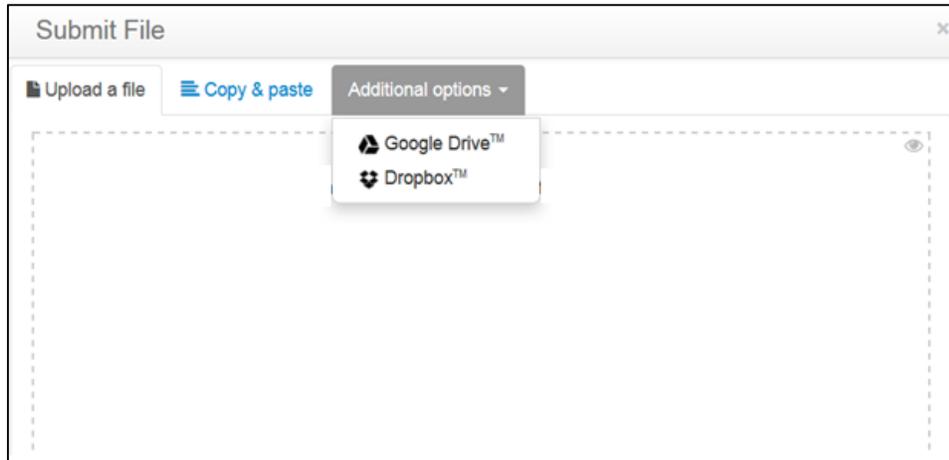

- Give a name to your submission and click on "Select a file to upload" to browse for the file you want to submit. A student can also drag and drop a file in this window to upload a file.
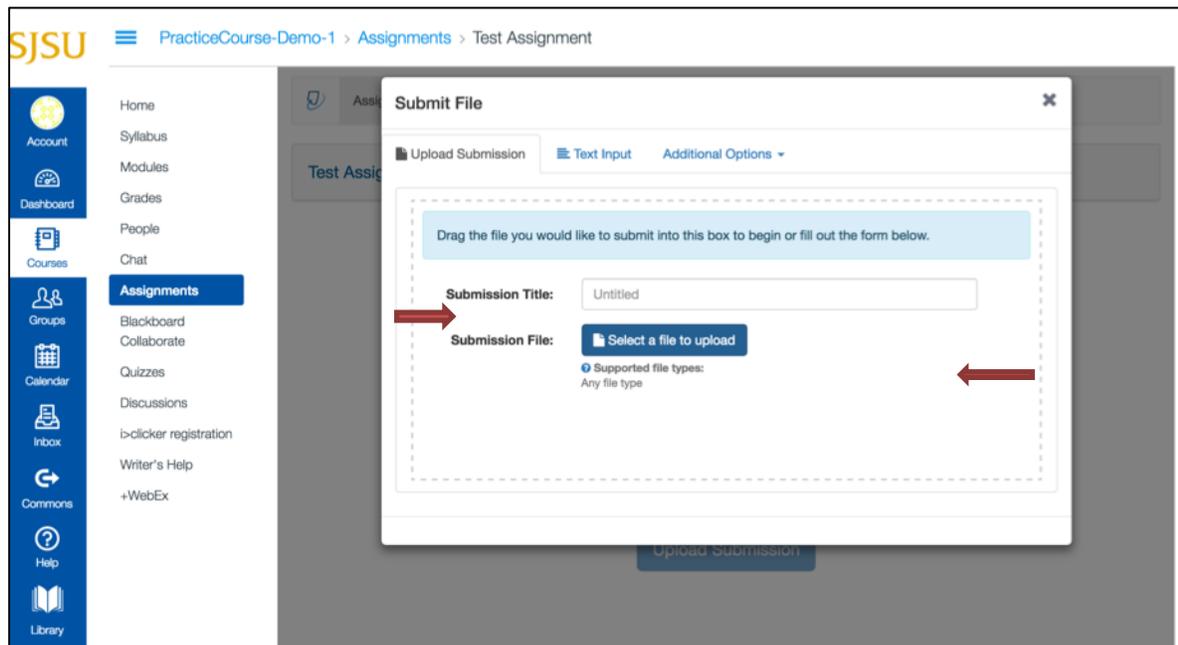

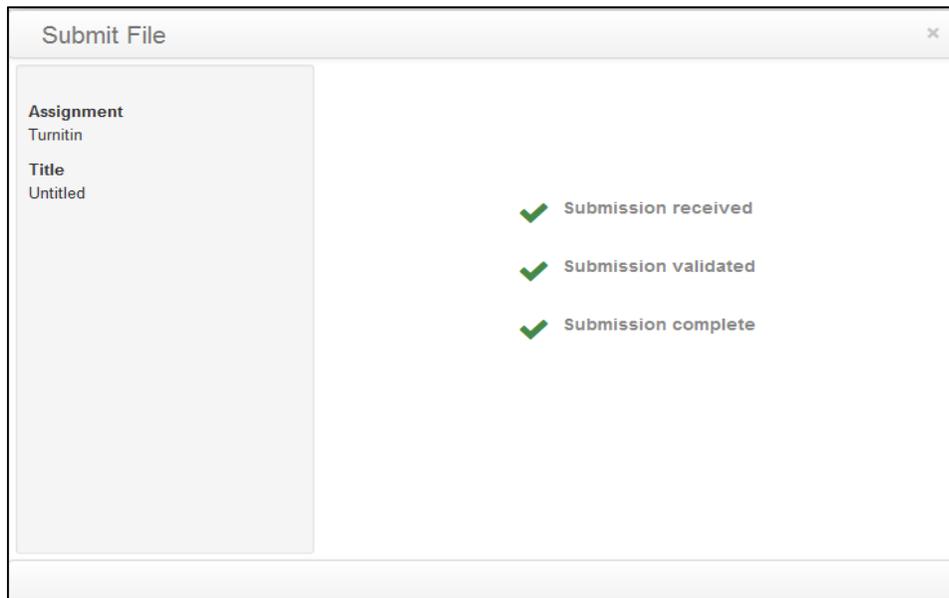

- You can also copy and paste the content of submission and upload the same.
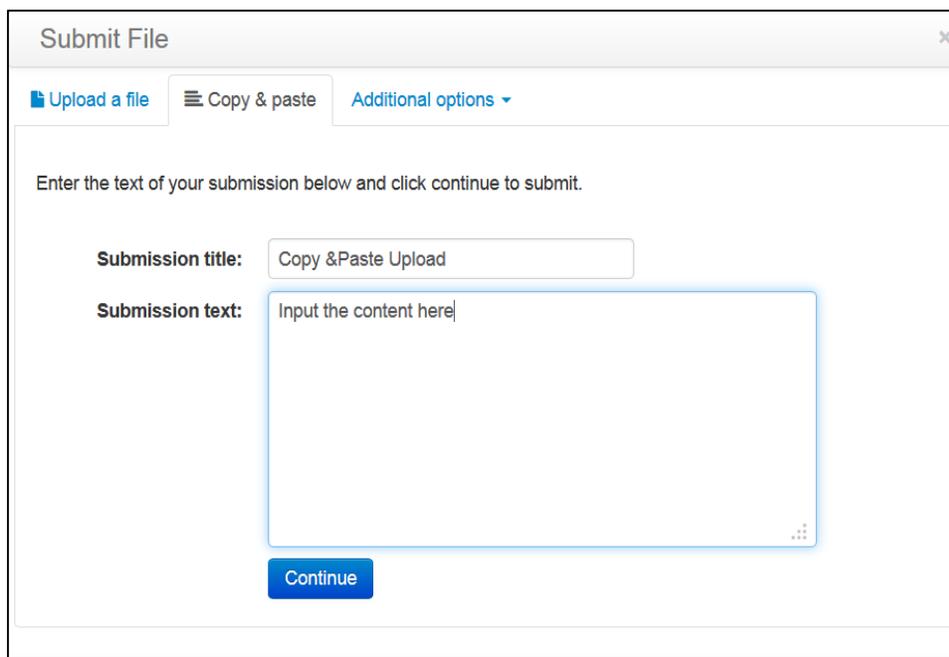

- Google Drive/ Dropbox can also be used for uploading the files.

Once the file is uploaded, it is validated and preview of submission is allowed.

When the [Accept submission - save] button is clicked, the assignment gets saved and submitted.

On successful submission, the below screen with the submitted paper title and the date of submission is displayed.
