

Emergency Response and Recovery

Kim Walesh

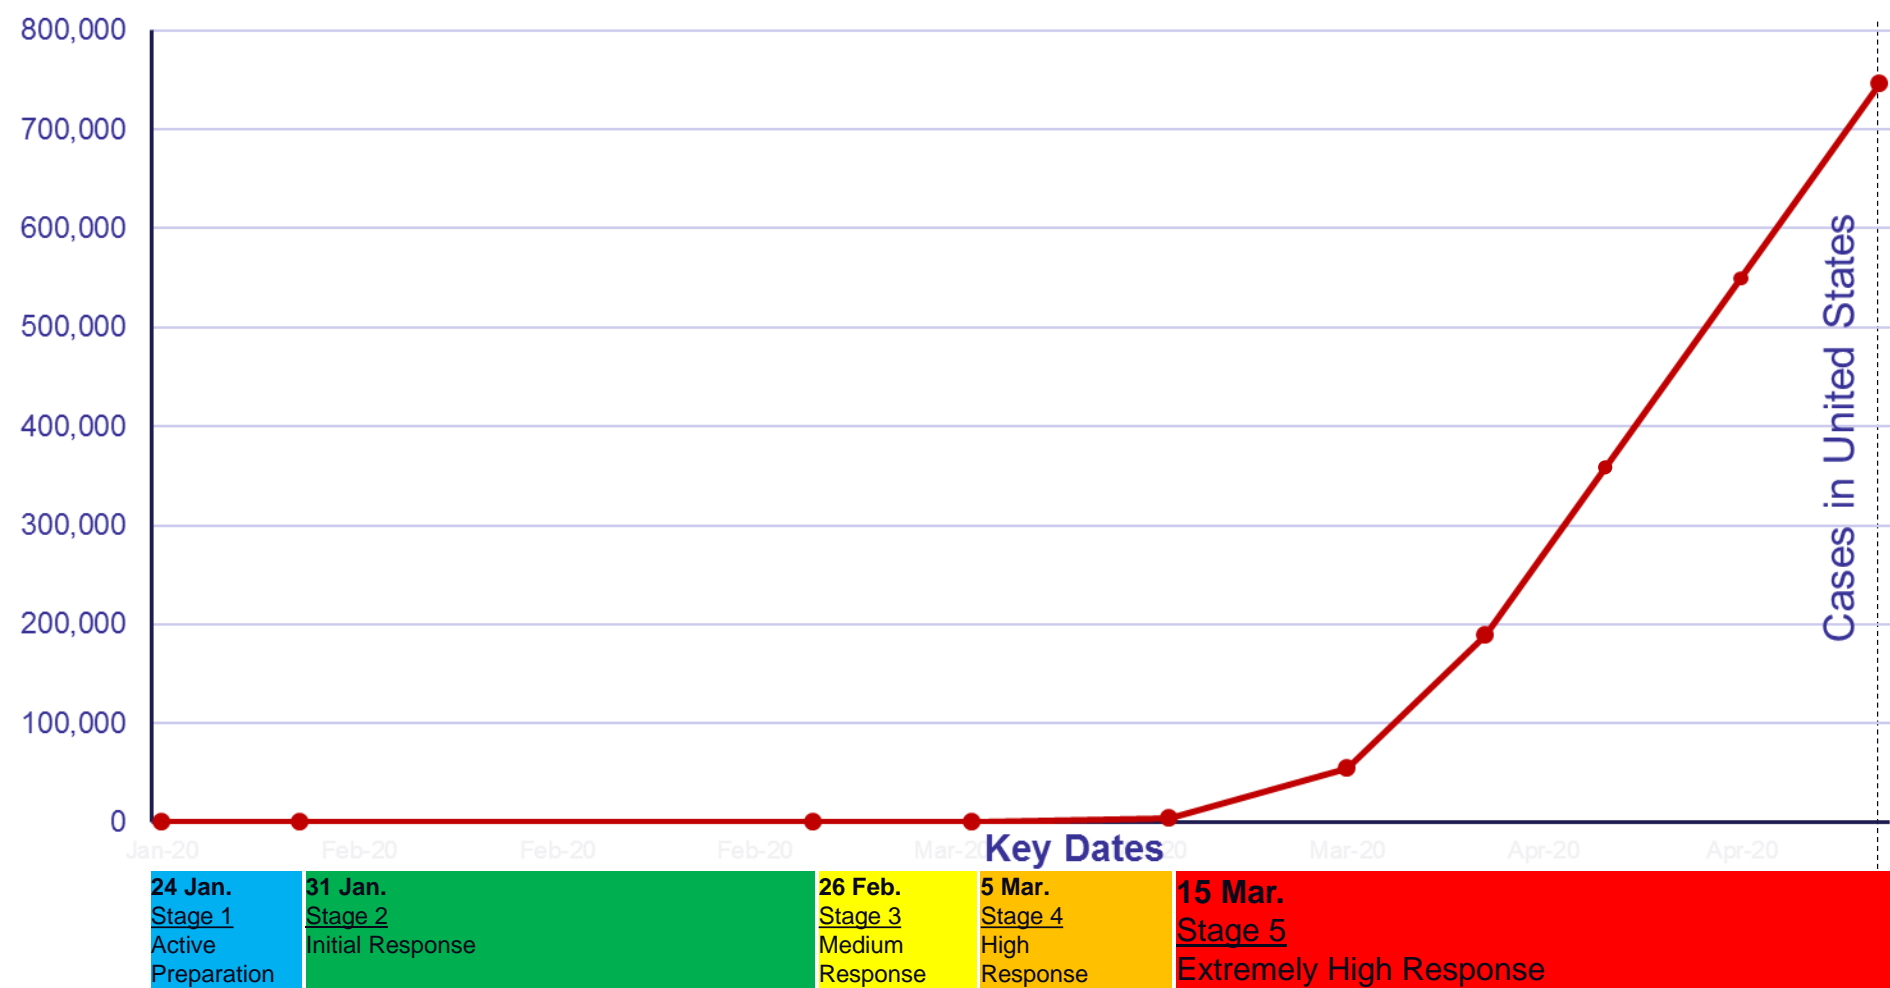

Deputy City Manager/

Economic Development Director

City of San Jose

We coordinated our pandemic response by moving through a series of stages

Three Challenges of Now

Imperative 1 Save Lives	Public Health	Slow and reduce the spread of Covid-19 and support our most at-risk people
Imperative 2 Save Livelihoods	Economic	Support individuals, families and businesses so they make it through the shelter in place and safely return to work
Imperative 3 Preserve our Fiscal Health	Fiscal	Ensure the continued fiscal health of the City so we can meet imperatives 1 and 2 while providing essential services

City Emergency Response:

Slow and reduce the spread of COVID-19, and support our most at-risk people

850 meals

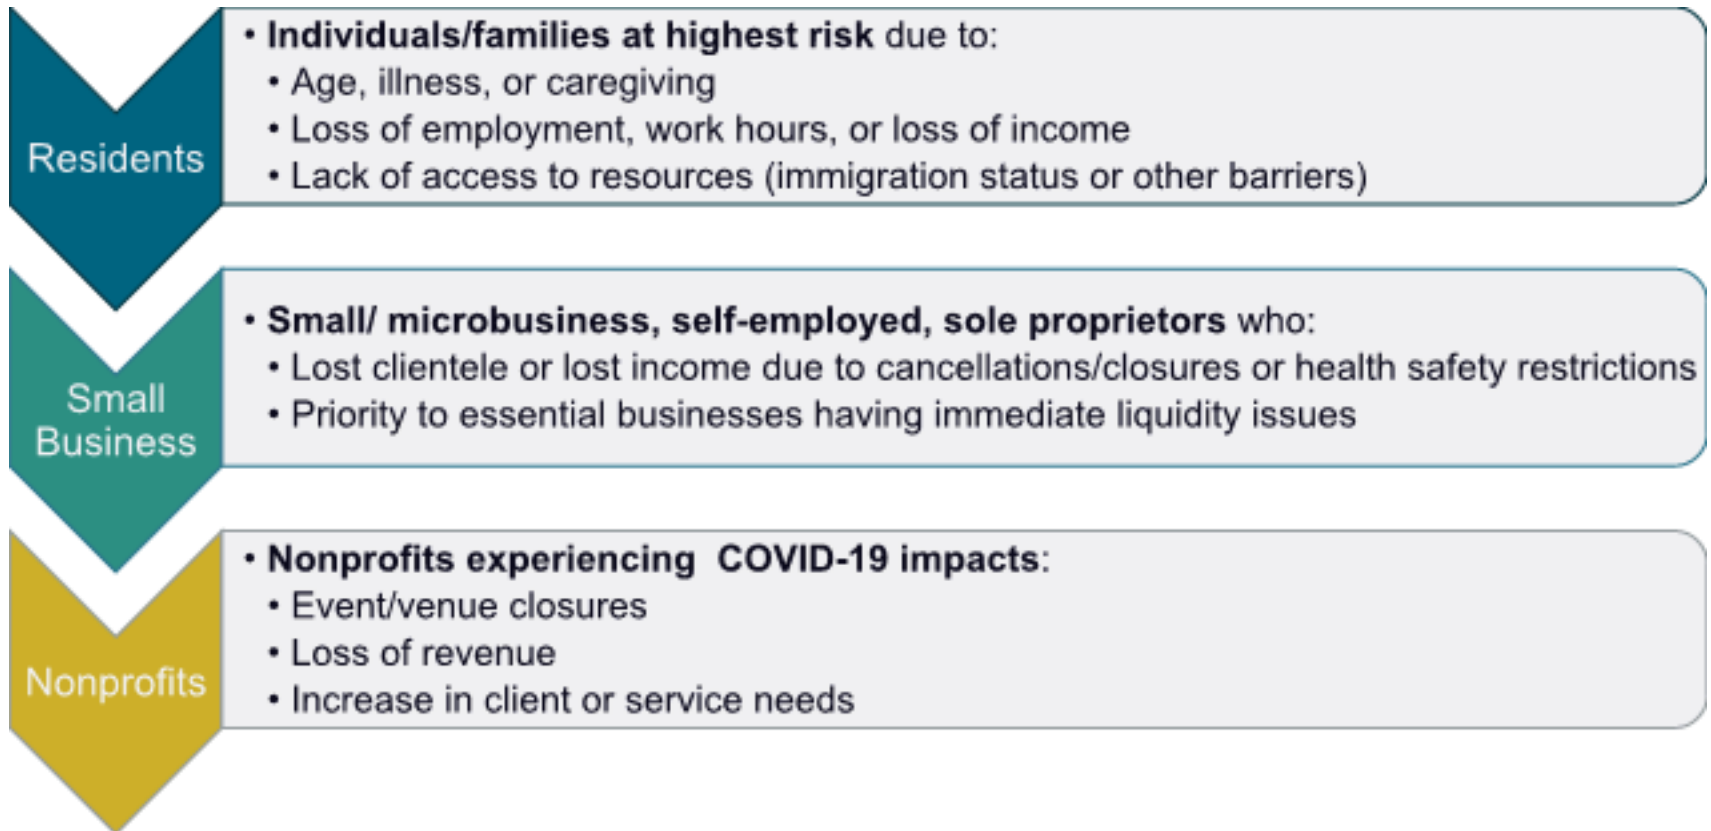

Prior to COVID-19, the City was responsible for about **850** meals per day

Now...

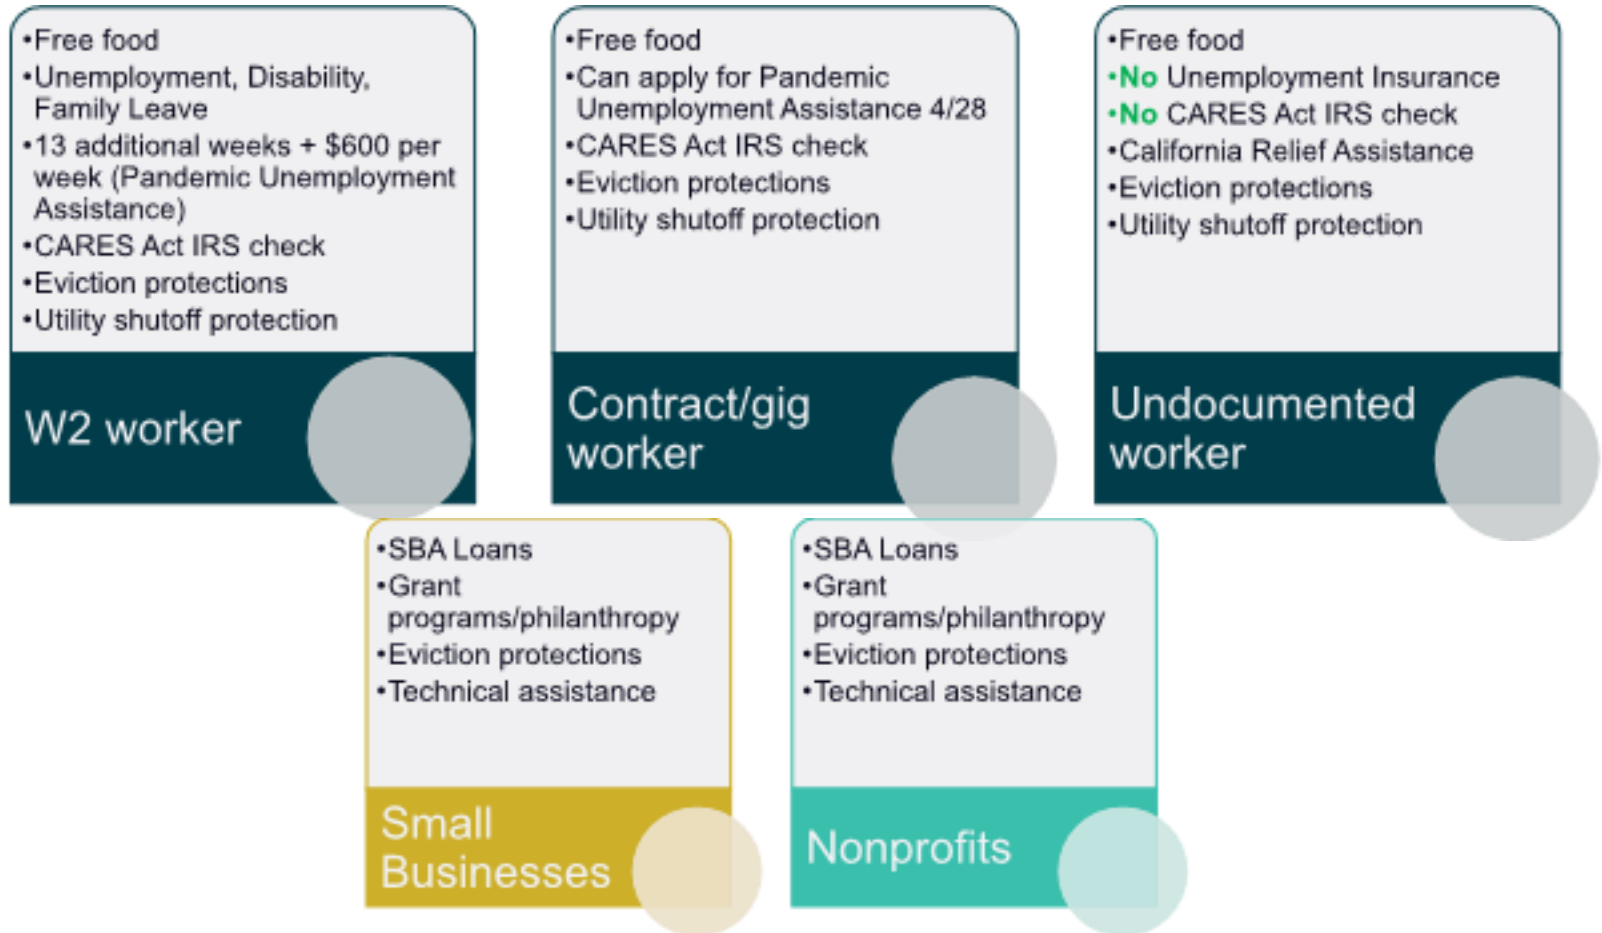

We and our partners are responsible
for over **400,000** meals per day

Local Assistance Focus: Our Most Vulnerable

Assistance: What's Available?

“Virtual” Local Assistance Center

COVID-19 GUIDANCE
FOR EMPLOYERS, WORKERS AND BUSINESSES

The novel coronavirus (COVID-19) outbreak is creating a challenging business climate in San Jose and across the country. We are providing this page to serve as a centralized resource for employers, employees, small businesses and non-profits to discover critical resource information. To suggest an addition, email covid19sjbusiness@sanjoseca.gov.
