

Navigate with GENERATE!

Please join us in a new effort to personally connect first-generation students with our campus resources!

Navigate with GENERATE is a series of campus resource "field trips," where GENERATE's First-Generation Student Group will be visiting various departments and/or programs on campus to receive a short presentation from a representative from that department/program, followed by a brief tour of the facility (where possible).

Our goal with this project is to break down the barriers that some students feel when seeking out assistance, by helping them feel comfortable in the space, and connect with a staff member.

When:

- 3rd or 4th Tuesday of the month between 3:00pm – 4:30pm
- Day/time can be adjusted if necessary

Format:

- All sessions will begin with students gathering in the MOSAIC Cross Cultural Center. GENERATE's Student Ambassadors will check in with the students, and then walk the group over to the designated space for that session.
- One - two departments/programs will be visited during each Navigate with GENERATE session. Each visit will include:
 - 10-15 minute presentation (or longer if requested) on your department/program's services
 - 10-15 minute tour of the facility (as available)

Presentations should include:

- General overview of the services your department/program offers
- Opportunities for students to get involved
- Deadlines students should be aware of, in relation to your department

Tours should include:

- What your facility offers (i.e. meeting rooms, computers, etc.)
- Public areas for students to gather (i.e. study space, etc.)
- Where students can check-in (as available)

Interested in hosting a Navigate with GENERATE session? For any questions, please contact Amanda Aldama at amanda.aldama@sjsu.edu or at 408-924-6255.
